# ISSI (INTER RF SUBSYSTEM INTERFACE)

75% of cities say different radio frequencies hinder emergency operations with others[1]

60% of cities do not have interoperability with state emergency operation centers[1]

**49%** of cities are not interoperable with their state police[1]

92% of agencies do not have interoperability solutions completely transparent to responders in the field[2]

STAYING IN TOUCH WITH ROAMING RESOURCES AND ENABLING EFFECTIVE, INTEROPERABLE COMMUNICATIONS ACROSS DISPARATE RADIO SYSTEMS CAN BE A DAUNTING TASK.

WHAT IF

YOU COULD EXTEND COMMUNICATION AND COLLABORATION ACROSS INTEROPERABLE PROJECT 25 (P25) NETWORKS.

MAKE IT HAPPEN WITH ASTRO® 25 SOFTWARE SOLUTIONS

COMMUNICATIONS
Extend communication capabilities across disparate P25 networks.

CONTROL
Maintain full autonomy and control over your system.

FLEXIBILITY
Operate across different frequency bands.

USABILITY
Eliminate the need to use unfamiliar donor radios.

CONTACT
Maintain communications and data connection with roaming personnel.

For more information about ASTRO 25, contact your Motorola representative or visit **motorolasolutions.com/ASTRO25**.
